## Principal's Report

### **POSITIVE SCHOOL CULTURE**

At Tingha Public School we are committed to providing an education for our students whilst supporting their social and emotional needs. We constantly reinforce and model for the students the qualities required to be responsible school and community minded citizens. Included within this is engaging in all learning tasks, speaking respectfully and encouraging other students to be 'Totally Proud and Strong' with their learning and of their achievements. When students display these characteristics it leads to a positive school culture that values education and learning.

### **SCHOOL SELF EVALUATION AND NEW SCHOOL PLAN**

Parents and caregivers play a very important role in the education of their children. I am asking for your thoughts and feedback as part of the school self-evaluation process. Attached to the newsletter is a parent satisfaction survey. It would be appreciated if you could take the time to complete this and return to school as soon as possible. All feedback is valued. The information you provide will assist in informing the next School Improvement Plan for 2021-2024.

### **KINDERGARTEN TRANSITION**

Tomorrow is a very exciting day. Our 2021 Kindergarten students will have their first session of transition to 'big' school. We look forward to welcoming and sharing our beautiful school with them.

### **HIGH SCHOOL TRANSITION**

Transition to high school sessions have been planned for later in the term. This includes a full day on Thursday 26<sup>th</sup> November and another session on Thursday 3<sup>rd</sup> December. Unfortunately, due to COVID restrictions these will be the only transition sessions held this year.

### **NAIDOC Week**

Next week we will recognise NAIDOC Week. Classes will participate in cultural activities throughout the week. Unfortunately due to COVID restrictions we will not be able to celebrate this cultural week as we have previously done in the past.

I look forward to another great fortnight at Tingha Public School.

Melinda Partridge  
Principal

### **Headlice**

With the warmer weather fast approaching, we would like to take the opportunity to remind you that headlice will be more active. Please check your child/rens hair on a regular basis.

# SPOTLIGHT ON YEAR 4/5/6

The students were asked to construct a battery using everyday items. The students discovered that a lemon, orange and even a potato generated an electrical current.

As part of our health unit the students in Year 4/5/6 are participating in cooking lessons. They are learning about healthy eating, hygiene, table etiquette and cutting techniques. Their first meal they prepared from scratch was a very tasty hamburger.
